

PIYUSH KUMAR

Adm. No. 25MT0338 9877265083

25MT0338@iitism.ac.in www.linkedin.com/in/piyushkumar1119

Education

IIT - ISM

M.Tech - fuel and energy engineering (CGPA: 8.17 / 10)

Expected May 2027

Dhanbad, jharkhand

- **Relevant Coursework:** Fuel technology , biofuel, Alternate energy , Computational fluid dynamics, Processing of liquid and gaseous fuel, Energy Technology.

MAHARAJA RANJIT SINGH PUNJAB TECHNICAL UNIVERSITY

BTECH -MECHANICAL Engineering (Percentage - 76.42)

May 2019

BATHINDA ,PUNJAB

- **Relevant Coursework:** Fluid mechanics , Thermodynamics ,Heat and mass transfer ,Powerplant,strength of material.

loyola high school

class 12th (percentage - 80.06)

May 2015

Patna ,Bihar

Crescent convent school

class 10th (percentage - 87.74)

May 2012

Dildarnagar ,UP

Experience

INDO AUTO

RESEARCH AND DEVELOPMENT

Jan 2018 – May 2018

faridabad ,delhi

CADD CENTRE

AUTOCAD

OCT -2018 - DEC 2018

Faridabad, delhi

INFOWIZ (SUMMER TRAINING)

AUTOCAD

MAY -2016 - JULY 2016

BATHINDA, PUNJAB

IIT DELHI (WORKSHOP)

SPECIALIZED IC ENGINE

2 DAY(2017)

IIT DELHI .

Projects

CSIR IIP (Dehradun) / (working as a Research intern from June 2026 onwards)

- Kinetic and Thermal Analysis: Evaluated devolatilization, char burnout, and reaction kinetics of raw vs. torrefied biomass co-fired with pulverized coal using Thermogravimetric Analysis (TGA) across varied.
- Hands on experience on TGA ,TOC, PROXIMATE .

MAGNETIC LEVITATION EFFECT AND IMPLIMENTATION TO SOLAR AND TURBINE

- Magnetic levitation offers a highly efficient ,frictionless alternative to traditional mechanical systems in renewable energy technology .When applied to wind turbines or solar tracking systems, maglev can significantly increase performance , reduce maintenance and extend equipment lifespan.
- Maglev based renewable systems could become a mainstream solution in sustainable energy generation .

BAJA SAEINDIA - 2018 (GROUND TO GLORY)

- The BAJA SAEINDIA ATV project is a comprehensive engineering challenge that integrates design, analysis, manufacturing, and real-time testing. The final vehicle demonstrates the team's technical capability, teamwork, creativity, and understanding of real-world automotive engineering. It equips students with hands-on experience that prepares them for industry challenges in mobility and off-road vehicle design.

Technical Skills

SOFTWARE : Python, SOLIDWORK, MATLAB, VISUAL STUDIO CODE

Concepts: TOC , TGA, PROXIMATE ANALYSIS, ULTIMATE ANALYSIS, BIO-FUEL PRODUCTION .

Achievements

- GATE 2025, CHS BHU ENTRANCE 2012- RANK 81

PARTICIPATED IN NOET (NET ZERO EMISSION TECHNOLOGY) IIT ISM DHANBAD.

Social Engagements

CONVENER: ASER (One of india's largest led education survey)

SPORTS ENGAGEMENTS : Inter branch college tournament (2016)

VOLUNTEER: Tarunum colleg fest, Inter university yoga day , University athelete meet .

ACTIVE MEMBER: Society of automotive engineer till (2019).
